Dear Mr. Rozelle:

We are happy to assist you in your request for visitor counts at the Old Courthouse. As you can judge by the numbers, your Middle Passage Project was a big success. Not only did it have a high visitation, it also reached many different audiences. The education of our society not only depends on formal education, but on historical and sensory exhibits such as yours.

We wish you success with your next venue for the Middle Passage Project and thank you for sharing your exhibit and art with our visitors.

Sincerely,

Kenneth Schaefer
